PROFESSIONAL SUMMARY

Front-End Developer with 6 years of experience delivering responsive web and mobile applications across finance, e-commerce, and networking domains. Proficient in React.js, React Native, TypeScript, Redux, and Next.js. Skilled in writing unit and integration tests, enhancing accessibility, and collaborating within Agile teams to deliver high-quality products.

EDUCATION

- **Birla Institute of Technology, Mesra** — Ranchi, India
  Bachelor of Engineering — *2015 – 2019*

TECHNICAL SKILLS

Languages/Frameworks: HTML5, CSS3, JavaScript, TypeScript, React.js, React Native, Next.js, Redux, Redux Saga

Testing: Jest, Cypress

Version Control: Git, GitHub, GitLab

Database: MySQL

Tools: Visual Studio Code, Xcode, JIRA

OS: Windows, macOS

EXPERIENCE

- **Accenture** — India
  Custom Software Engineering Analyst — *April 2023 – Present*
  - : Developed core features for the retail web app, including the **shopping cart**, listing, and confirmation pages.
  - : Built responsive UI components with **Next.js**, **TypeScript**, **Redux**, and **Redux Saga**.
  - : Created unit tests in **Jest** to support high-quality releases and reduce regressions.

- **Accenture** — India
  Custom Software Engineering Analyst — *March 2023 – Present*
  - : Developed **cart** and **promo code** workflows for a financial web app using **Next.js**, **TypeScript**, and **Redux**.
  - : Built accessible, responsive UI components aligned with **web standards**.
  - : Created unit and integration tests with **Jest** and **Cypress** to ensure stability.

- **Accenture** — India
  Custom Software Engineering Analyst — *July 2021 – February 2023*
  - : Led the development of critical e-commerce features for an iOS React Native app, including product listing, shopping cart, order details, and confirmation flows for vehicle accessories and on-demand services.
  - : Implemented robust state management using Redux and Redux Saga, ensuring consistent, real-time updates across cart operations, order processing, and service scheduling.
  - : Integrated REST APIs to enable dynamic content retrieval and secure transaction workflows, supporting complex scenarios such as scheduling home or garage services.
  - : Maintained 85% unit test coverage with Jest and participated in Agile ceremonies, contributing to predictable delivery cycles and high-quality feature releases.

- **Cognizant Technology Solutions** — India
  Software Engineer — *July 2019 – July 2021*
  - : Built a **fund transfer web application** enabling customers to access and track transfer requests for a **retirement plan recordkeeping financial holding company**.
  - : Implemented **web accessibility features** to improve the experience for users with visual and motor impairments.
  - : Developed scalable, consistent state management using **React.js**, **Redux**, and **TypeScript**.
  - : Achieved **80% test coverage** with **Jest** to ensure stability and reliability.
  - : Collaborated in Agile teams to deliver features incrementally and meet project milestones.
